Stealth mouse button codes mapping

	15 7 11	13 5 9			16 8 12	14 6 10	

2		3

1
4

* Buttons marked by green and red do not return its own codes but alters codes for buttons 7,5,8,6. Thus button 7 returns 11 when green button is pressed at the same time and returns 15 when red button is pressed.

IBox32.ini can be used to assign DPS "Delta" command for every button of stealth mouse.

Available commands are:
 1 Register
 2 Zoom In
 3 Zoom Out
 4 Navigate
 5 Autoregistration
 6 Delete point
 7 Snap to point
 8 Snap to line
 9 Snap to intersection
10 Snap to perpendicular
11 Close object
12 Finish object
13 Insert Break
14 Insert Arc
15 Autoscrolling
16 Select object
17 Delete objects
18 Lighter raster
19 Darker raster
20 2D/3D snap
21 Lock mouse
22 Exit capture mode

Default settings are:
Button1=1
Button2=16
Button3=4
Button4=15
Button5=11
Button6=6
Button7=5
Button8=12
Button9=9
Button10=10
Button11=7
Button12=8
Button13=2
Button14=18
Button15=3
Button16=19

Navigate and **Autoscrolling** commands work until button is holding pressed.
Navigate command changes zoom temporary (while button is pressed) to move cursor to distant position of photo.
Autoscrolling command keeps constant cursor scrolling/moving (while button is pressed) using the last movement direction.
